QUR'ANIC VERSES ON INTEREST

- "Jabir bin Abdullah (R) said that Rasul (Allah's Messenger) (S) cursed the acceptor of interest and its payer, and the one who records it, and the witness; and he said They are all equal. (Muslim)
- Abdullah Ibn Masud (R) has quoted a Hadith of Rasul (Allah's Messenger) (S) as saying: Whenever adultery and usury become rampant in a community, it is inevitable that wrath of Allah will befall upon them. (Abu Yala)
- Abu Huraira (R) has narrated that Rasul (Allah's Messenger) (S) said: Allah as his unique right
 will not allow four categories of people to enter the heaven and also refrain them from taking
 taste of his bounties 1) Drunkard 2) Usury 3) Devourers of orphan's wealth and 4) Disobedience
 of parents. (Mustadarake Hakim)
- Abu Huraira (R) has narrated that Rasul (Allah's Messenger) (S) said: you should protect yourself from 7(seven) destructive issues 'what are those'? -asked his companions. He said those are
 1) Join in worship others with Allah 2) Mesmerizing 3) Killing someone unlawfully 4) Usury 5)
 Devourers of orphan's wealth 6) Flight from the battle field and 7) To charge against chaste women. (Bukhari, Muslim and Abu Daud)
- Samura Ibn Zundub (R) has narrated that Rasul (Allah's Messenger) (S) said: I saw in a dream that two persons came to me and took me to a sacred place. Thereafter three of us proceeded to a river full to blood and saw that a man was swimming in the river and another was standing on the bank with huge rocks in front of him. When the swimmer approached the bank, the man standing on it hit the swimmer with the rocks so heavily that he receded to his original place. Whenever the swimmer tried to approach the bank of the river again, the standing person did the same as before. Rasul (Allah's Messenger) (S) asked 'who is this man in the river' One of the angels said 'He is a usurer'. (Bukhari)

OPINION OF OTHER RELIGIONS AND GREAT MEN ON INTEREST

- Interest has been banned in the two books of Hazrat Musa (A.), which are considered as the scriptures of Jews. The 22nd line of Exodus goes as saying, 'If you lend money to a poor man, don't become money lenders and don't realize interest from him.'
- Similarly in 23rd line of ancient scripture of the Jews entitled "Deuteronomy" states, 'You don't lend money to your brother for interest -i.e interest on money, interest on foodstuff and interest on anything lent.'
- Hebrewism is known as Musaic or Jewism. Musaic laws or commands of Musa are the basis of
 Hebrewism. Interest was totally prohibited in Musaic law. This rule was exclusively practiced by
 the Jews. In this ideology, there are clear directions on interest as other aspects of economics.
 In Hinduism, usury business was restricted within the 'Baithayas'.
- One Jew couldn't take interest by lending money from another. But, taking interest was in practice by lending money to the people of other religions.
- Some writers quoted from the book, 'Talmud' that the Hebrew prophets forbade interest not only from Jews but from all. (Eric Roll, A history of Economic Thought: page 48)
- Interest was prohibited from the beginning of the Christianity to the advent of the Reform Movement and from the Church under pope in Rome to the division of other Churches, Christ said, 'Lend hopping for nothing again.' (Luke VI 35, Hanley: History of Economic Thought 1964, Page 101)

Economic impact can be defined as any increase or decrease in productive potential of an economy. By analyzing the economic impact we can understand how a bank adds value to the society. Economic impacts can be broadly categorized as:

- i) Direct Impact
- ii) Indirect Impact

Direct Impact

Direct impacts are the immediate economic effects resulting from the banks financial transactions. Bank's direct contribution to the economy resulted in the creation of employment opportunities, payment of tax to the government and maximization of shareholders wealth.

Indirect Impact

Indirect impacts are the spill over economic effects that occur through Bank's normal course of operations. Banks generate indirect impact by addressing the deficiency of capital in the economy by mobilizing deposit and channelizing the same to prospective investors.

Through catering financial services, the Bank helped distribute the wealth among all the stakeholders for example shareholders received dividend, depositors and investors got profit, employees received compensation and other benefits, the under privileged reaped benefits out of CSR while the government earned tax revenue.

In 2016, total value added by AIBL was BDT 8,631.57 million as against BDT 6,899.06 million in 2015. Bank's direct contribution to the economy was BDT 2,613.76 million in the form of corporate income tax. The Bank distributed BDT 2,705.24 million for its total 3,070 officials in 2016 as against that of BDT 2,339.67 million for 2,810 in 2015.

At the end of 2016, the Bank mobilized total deposits of BDT 199,703.91 million and aided the economy in meeting its growth target by deploying BDT 196,519.38 million as investment to different sectors of the economy. Apart from these, the Bank performed significant import and export business.

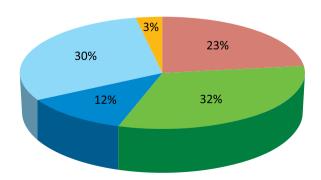

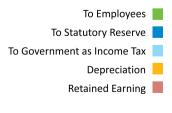

Value added is a measure of wealth created by the Bank through various business activities. The statement of value added shows the total wealth created and how it was distributed among stakeholders, including the Government, employees and shareholders.

Bismillahir Rahmanir Rahim

At the very outset, we express our deep sense of gratitude to Almighty Allah (SWT), the Lord, and the Merciful for granting us a good result in overall business performance of the Bank during the challenging year 2016.

Global Economic Outlook

The global economy has now entered its sixth year of stagnation, and the growth outlook for 2017 shows a continuation of this trend. A projected stabilization in energy and commodity prices may provide a small tailwind for resource rich economies in 2017, but the medium-term trend continues to be dominated by weaker growth in key inputs, notably investment and labor supply. Modest positive signals emerge from the base scenario showing some strengthening in qualitative growth factors, such as more advanced technology, improved labor force skills, and greater productivity. But those potentially favorable factors are under pressure from ongoing political, policy, and economic uncertainties around the world. This risks further inertia caused by a wait-and-see attitude among corporate and governments. Businesses have to prepare for more disruptions from geopolitical tensions, policy uncertainty, financial market volatility, and rapid changes in technology, but they also need to stay focused on leveraging the qualitative sources of growth with investment in technology and business productivity even—or especially—in times of stagnation.

Global growth in real GDP has dropped off to 2.5 percent in 2016 – its lowest rate since the end of the global recession in

2009, and is likely to increase only marginally to 2.8 percent in 2017. Among the larger economies, the United States is expected to see somewhat faster growth of 2 percent in 2017 compared to 1.6 percent in 2016. The European growth environment remains fragile as downside risks continue to linger after the 2008/09 and 2012/13 recessions. During the last five years, Euro Area average GDP growth was just 0.5 percent. The region is expected to see a 1.4 percent growth rate in 2017, somewhat below the 1.5 percent growth in 2016.

Bangladesh Economic Outlook

Robust investment and solid consumption have kept the Bangladeshi economy on a solid footing so far in FY 2017. Despite a decrease in remittances from Middle East countries due to the plunge in oil prices, low price pressures and rising wages have bolstered household purchasing power. Meanwhile, stronger government spending is behind the healthy performance of investment. Moreover, lately, the government approved a project worth around USD 13 billion for a nuclear plant in the western part of the country, partially funded by Russia.

While the government targeted economic growth at 7.2 percent for the FY17 while Bangladesh Bank forecasts – one based on an ARMA model and the other one on sector wise 10-year average growth – show a range from 7.1 to 7.3 percent. The World Bank projects growth for 2017 at 6.3 percent while the IMF at 6.9 percent, evidencing a remarkable difference in the projections of the two international agencies.

Bangladesh aspires to be a middle-income country by 2021. This will require increasing GDP growth to 7.5 to 8 percent per year based on accelerated export and remittance growth. Both public and private investment will need to increase as well. Growth will also need to be more inclusive through creation of productive employment opportunities in the domestic economy. To sustain accelerated and inclusive growth, Bangladesh will need to manage the urbanization process more effectively, as well as prepare for adaptation to climate change impacts.

Green Banking Activities

All banks and financial institutions have major responsibilities to practice and impose the environmental protection law on itself and all other its stakeholders as all business activities are performed circle around banks and financial institution. That's why the concept "Green banking" has come to light.

The modern term "Green" means "not to misuse/conservation" that Allah (Subhanahu Wa Ta'ala) has narrated in Holy Qur'an several times, Thousands of years ago for the betterment of earth. Allah (Subhanahu Wa Ta'ala) says in Holy Qur'an:-

"And Allah Love not those who do mischief" (Surah Al Ma'eda, verse 64)

The goal of Green banking is also same as Islam. So, Islami banks are one step ahead for Shariah implementation that forbidden Riba and also not permit illegal financial or business activities. In another word, Green banking is the modern form of few Islamic moralities. As a Shariah complied bank, Al-Arafah Islami bank limited is very much conscious and eagerly practicing Green banking in all its activities. The aim of AIBL is "Maximum utilization of minimum resources" with the slogan - "Act Green, to remain in Green".

Economy Analyses

Global Economic Outlook

The global economy has now entered its sixth year of stagnation, and the growth outlook for 2017 shows a continuation of this trend. A projected stabilization in energy and commodity prices may provide a small tailwind for resource rich economies in 2017, but the medium-term trend continues to be dominated by weaker growth in key inputs, notably investment and labor supply. Modest positive signals emerge from the base scenario showing some strengthening in qualitative growth factors, such as more advanced technology, improved labor force skills, and greater productivity. But those potentially favorable factors are under pressure from ongoing political, policy, and economic uncertainties around the world. This risks further inertia caused by a wait-and-see attitude among corporate and governments. Businesses have to prepare for more disruptions from geopolitical tensions, policy uncertainty, financial market volatility, and rapid changes in technology, but they also need to stay focused on leveraging the qualitative sources of growth with investment in technology and business productivity even—or especially in times of stagnation.

Global growth in real GDP has dropped off to 2.5 percent in 2016 – its lowest rate since the end of the global recession in

2009, and is likely to increase only marginally to 2.8 percent in 2017. Among the larger economies, the United States is expected to see somewhat faster growth of 2 percent in 2017 compared to 1.6 percent in 2016. The European growth environment remains fragile as downside risks continue to linger after the 2008/09 and 2012/13 recessions. During the last five years, Euro Area average GDP growth was just 0.5 percent. The region is expected to see a 1.4 percent growth rate in 2017, somewhat below the 1.5 percent growth in 2016.

Bangladesh Economic Outlook

Robust investment and solid consumption have kept the Bangladeshi economy on a solid footing so far in FY 2017. Despite a decrease in remittances from Middle East countries due to the plunge in oil prices, low price pressures and rising wages have bolstered household purchasing power. Meanwhile, stronger government spending is behind the healthy performance of investment. Moreover, lately, the government approved a project worth around USD 13 billion for a nuclear plant in the western part of the country, partially funded by Russia.

While the government targeted economic growth at 7.2 percent for the FY17 while Bangladesh Bank forecasts – one based on an ARMA model and the other one on sector wise 10-year average growth – show a range from 7.1 to 7.3 percent. The World Bank projects growth for 2017 at 6.3 percent while the IMF at 6.9 percent, evidencing a remarkable difference in the projections of the two international agencies.

Bangladesh aspires to be a middle-income country by 2021. This will require increasing GDP growth to 7.5 to 8 percent per year based on accelerated export and remittance growth. Both public and private investment will need to increase as well. Growth will also need to be more inclusive through creation of productive employment opportunities in the domestic economy. To sustain accelerated and inclusive growth, Bangladesh will need to manage the urbanization process more effectively, as well as prepare for adaptation to climate change impacts.

জাতীয় শুদ্ধাচার কৌশল ও এআইবিএল কর্মকর্তাদের নৈতিকতার মানোনুয়ন

জাতীয় শুদ্ধাচার কৌশল ঃ

শুদ্ধাচার বলতে সাধারণভাবে নৈতিকতা ও সততা দ্বারা প্রভাবিত আচরণগত উৎকর্য বুঝায়। এর দ্বারা একটি জাতি বা সমাজের কালোর্ত্তীণ মানদন্ড, নীতি ও প্রথার প্রতি আনুগত্যও বুঝানো হয়। ব্যক্তি-পর্যায়ে এর অর্থ হল কর্তব্যনিষ্ঠা ও সততা তথা চরিত্রনিষ্ঠা।

জাতীয় শুদ্ধাচার কৌশল প্রণয়নের লক্ষ্য ও উদ্দেশ্য ঃ

শুদ্ধাচারের উপর গুরুত্ব দিয়ে "প্রেক্ষিত পরিকল্পনা ২০২১" এ দুর্নীতি দমনকে একটি আন্দোলন হিসেবে গড়ে তোলার অঙ্গীকার ব্যক্ত করা হয়েছে। সেই অঙ্গীকারকে কার্যকরভাবে বাস্তবায়নের লক্ষ্যেই সরকার এই "শুদ্ধাচার কৌশল" প্রণয়ন করেছে। এই কৌশলের রূপকল্প ও অভিলক্ষ্য (Vision & Mission) হল সুখী- সমৃদ্ধ সোনার বাংলা এবং রাষ্ট্রীয় সকল প্রতিষ্ঠান ও সমাজে সুশাসন প্রতিষ্ঠা করা। রাষ্ট্রের অন্যতম লক্ষ্য ও দায়িত্ব হল নাগরিকের জন্য আইনের শাসন, মৌলিক মানবাধিকার, সমতা, ন্যায়বিচার প্রতিষ্ঠা এবং রাজনৈতিক, অর্থনৈতিক ও সামাজিক অধিকার নিশ্চিত করা। গনপ্রজাতন্ত্রী বাংলাদেশের সংবিধানে 'মানবসন্তার মর্যাদা ও মূল্যের প্রতি শ্রদ্ধাবোধ' রাষ্ট্র-পরিচালনার অন্যতম মূল্নীতি হিসাবে চিহ্নিত হয়েছে। সেই লক্ষ্য বাস্তবায়নের জন্য সরকার দেশে সুশাসন প্রতিষ্ঠার উদ্যোগ গ্রহন করে এবং ২০১২ সালে জাতীয় শুদ্ধাচার কৌশল প্রণয়ন করে। এক্ষেত্রে একটি অপরিহার্য কৌশল হল সমাজ ও রাষ্ট্রকে দুর্নীতিমুক্ত তথা দেশে শুদ্ধাচার প্রতিষ্ঠা করা। বাংলাদেশ সরকার সোনার বাংলা গড়ার প্রত্যয়ে অক্টোবর ২০১২ সনে জাতীয় শুদ্ধাচার কৌশল (National Integrity Strategy) ঘোষণা করেছে।

জাতীয় শুদ্ধাচার আওতাভুক্ত ব্যক্তি/প্রতিষ্ঠান নাম ঃ

জাতীয় শুদ্ধাচার কৌশলটি রাষ্ট্র ও সমাজে দুর্নীতি দমন ও শুদ্ধাচার প্রতিষ্ঠার জন্য সকল রাষ্ট্রীয় প্রতিষ্ঠান, রাজনৈতিকদল, বেসরকারী প্রতিষ্ঠান, ব্যাংক, বীমা এবং শিক্ষা প্রতিষ্ঠান ইত্যাদিকে আওতায় আনা হয়েছে। সর্বোপরি, এসব প্রতিষ্ঠানে নিয়োজিত এবং তাদের সঙ্গে সংশ্লিষ্ট সকলের নৈতিকতা/চরিত্রনিষ্ঠা প্রতিষ্ঠার লক্ষ্যে স্ব-স্ব প্রতিষ্ঠান প্রয়োজনীয় কার্যক্রম গ্রহন করেছে।

Disclosures on

Risk Based Capital (Basel-III)

The public disclosure of prudential information is an important component of Basel Committee on Banking Supervision's framework of capital measurement and capital adequacy, known as Basel III. Bangladesh Bank has specified the standard of disclosure through Guidelines on Risk Based Capital Adequacy (December 2010) which revised in Basel III Guideline on December 2014 with implementation process from January 2015. The standard aims to enhance the transparency in Bangladeshi financial market by setting minimum requirement for the disclosure of information on the risk management practice and capital adequacy.

To cope up with the international best practices and to make the bank's capital shock absorbent 'Guidelines on Risk Based Capital Adequacy(RBCA) for banks' (Revised Regulatory Capital Framework in line with Basel II) was introduced from January 01, 2009 as a parallel run with BRPD Circular No. 10, dated November 25,2002 (Basel I). At the end of parallel run, Basel II regime started from January 01, 2010 and the guidelines on RBCA came fully into force with its subsequent supplements/revisions. After that Bangladesh Bank issued 'Guidelines on Risk Based Capital Adequacy (RBCA) for banks' (Revised Regulatory Capital Framework in line with Basel III) vide its BRPD Circular 18 dated December 21, 2014 that Basel III reporting start from January 2015 and full implementation will start from January 2020. Instructions regarding Minimum Capital Requirement (MCR), Adequate Capital and Disclosure requirement as stated in the guidelines had to be followed by all scheduled banks for the purpose of statutory compliance.

The bank has an approved disclosure policy to observe the disclosure requirements

(i) that are fully consolidated;

set out by the Bangladesh Bank and International Financial Reporting Standard (IFRS) and International Accounting Standards (IAS) as adopted by the Institute of Chartered Accounts of Bangladesh (ICAB) into Bangladesh Financial Reporting Standards (BFRS) and Bangladesh Accounting Standards (BAS) where relevant to the bank

(ii) that are given a deduction treatment; and

A group consists of a parent entity and all its subsidiaries. The control exercised by the parent entity is the power to govern the financial and operating policies of the subsidiaries so as to obtain benefits from its activities.

(iii) that are neither consolidated nor deducted

Consolidated financial statements represent combination of the financials of all subsidiaries of the parent entity. This consolidation is required when a parent owns 50 percent or more shares in the subsidiaries with controlling authority.

(e.g. where the investment is risk-weighted)

Procedures

In preparing consolidated financial statements, an entity combines the financial statements of the parent entity and its subsidiaries and the items covered are mainly assets, liabilities, equity, income and expenses. However intra group balances, transactions, income and expenses are eliminated in full.

The financial statements of the parent and its subsidiaries used in the preparation of the consolidated financial statements are of the same date. Consolidated financial statements are prepared using uniform accounting policies for both the parent entity and the subsidiaries.

Minority interest is presented in the consolidated statement of financial position within equity segment but separately from the equity of the owners of the parent entity.

Consolidation for regulatory purposes

Banks having subsidiaries have been advised to consolidate their financial statements following accounting standards as set by the regulators to assess capital adequacy. As such the bank has prepared capital adequacy report on Solo basis as well as on consolidated basis.

If subsidiaries financials are not consolidated with that of the Bank, investments in subsidiaries by the bank will be deducted at 50% from Tier 1 and 50% from Tier 2 capital of the bank. 3) Capital Adequacy: Qualitative Disclosures:

a) A summary discussion of the bank's approach to assessing the adequacy of its capital to support current and future activities

The Bank is subject to the Capital adequacy norms as per Master Circular on Basel-III Capital regulations issued by the Bangladesh Bank. The Basel III capital regulation is being implemented from 2016. In line with the guidelines of the Bangladesh Bank, the Bank has adopted the following approaches for computing the capital charge.

For Credit Risk – Standardized Approach

For Market Risk – Standardized Approach

Operational Risk - Basic Indicator Approach

The Bank has a policy on Internal Capital Adequacy Assessment Process (ICAAP) as stipulated by Bangladesh Bank. The ICAAP also details the Risk Appetite of the Bank, assessment of material risks, the process for capital adequacy assessment to support business projections, adequacy of risk control framework, capital raising plans and Bank-wide stress testing. The periodic assessment of bank's performance against the Risk Appetite defined under ICAAP and results of stress testing are reported to the Board of Directors for their review. CRAR has been computed based on the Basel III guidelines and it is well above the regulatory minimum level of 10%.

4) Credit Risk

1. Qualitative Disclosures:

a) Definition of past due and impaired assets (for accounting purposes)

A loan payment that has not been made as of its due date is termed as past due. Payment may be made for repayment/renewal/rescheduling or as an installment of a claim.

The past due claims are discussed below:

Special Mention Accounts (SMA):

A claim which is overdue for 90 days or more will be classified as Special Mention Account. When a loan is classified as SMA, it needs constant monitoring and supervision as the repayment probability decreases.

Sub-Standard (SS):

The repayment of the loan has been put in doubt but the recovery is not unlikely.

Doubtful (DF):

There is less possibility of recovery of the overdue amount and probability of loss is high.

Bad /Loss (B/L):

These are the loans which have almost turned unrecoverable.

Approaches followed for specific and general allowances:

i) Specific provision:

a) Substandard : 20% b) Doubtful : 50% c) Bad/Loss : 100%

ii) General Provision:

- a) 0.25% to 5% on different categories of unclassified loans.
- b) 1% on Off Balance sheet exposure.
- c) 5% on the outstanding amount of loans kept in the 'Special Mention Account' after netting off the amount of Interest Suspense. For classification of loan, specific and general allowances the bank follows Master Circular-Loan Classification and Provisioning vide BRPD circular no. 06 dated June 14, 2012; and as advised by Bangladesh Bank from time to time.

In addition to the above mentioned objective criteria, loans can be classified on the basis of subjective judgment taking into consideration the factors such as uncertainty or doubt of repayment, continuous loss of capital, adverse situation, decrease of value of securities, legal suit etc.

However, Bangladesh Bank can classify any claim on the basis of their subjective judgment as well as can ask the Bank to buildup additional provision on non-performing loans.

Credit Risk Management Policy

The bank has established Credit Risk Management framework as directed by Bangladesh Bank through introduction or Risk Management (CRM) policy guide along with implementation of the Credit Risk Grading (CRG). This framework defines CRM structure, role, responsibilities and the processes to identify, quantify, and manage risk within the framework under the given policy. The CRM policy is reviewed from time to time for adoption of new techniques/policies for measurement and management of risk in line with the socio-economic scenario and investment environment of the country

Changes in interest rates affect a bank's earnings by changing its net interest income and the level of other interest sensitive income and operating income. Changes in interest rates also affect the underlying value of the bank's assets, liabilities and off-balance-sheet instruments because the economic value of future cash flows changes when interest rates change.

- 1. Interest rate risk in the banking book can be measured on the basis of:
- 2. Economic value perspective- net interest income measured in a given point in time such as Economic Value of Capital

a) Qualitative Disclosuresa)

Views of BOD on trading	The Board approves all policies related to market risk, sets limits and reviews
investment activities	compliance on a regular basis. The objective is to provide cost effective funding to finance asset growth and trade related transactions. Trading book consists of positions in financial instruments held with trading intent or in order to hedge other elements of the Trading Book. The portfolio of investment includes Government Treasury Bills and Bonds, Prize Bonds, Shares of listed Public Limited Companies etc. Bank always desires to invest in high yield areas and also has ensured maintenance or Statutory Liquidity Requirements (SLR) as fixed by Bangladesh Bank.
Methods used to measure	Market risk is the possibility of losing assets in the balance sheet and off- balance sheet positions due to volatility in the market variables viz. interest rate, foreign exchange rate, reinvestment and price. The bank measures impact on profitability and impact on asset prices under market risk through Maturity GAP Analysis, Sensitivity Analysis, VAR, and Mark to Market and has adopted Standardized Measurement approach for measuring Market Risks under Basel-III.
Market Risk.	Standardized approach has been used to measure the market risk. The total capital requirement in respect of market risk is the aggregate capital requirement calculated for each of the risk sub-categories. The methodology to calculate capital requirement under Standardized Approach for each of these market risk categories is as follows: a) Capital charges for interest rate risk= Capital Charge for General Market Risk b) Capital charges for Equity Position Risk= Capital Charge for Specific Risk+ Capital Charge for General Market Risk c) Capital charges for Foreign Exchange Risk=Capital Charge for General Market Risk d) Capital charges for Commodity Position Risk=Capital Charge for General Market Risk
Market Risk Management System:	The Bank has its own Market Risk Management System which includes Asset Liability Risk Management (ALM) and Foreign Exchange Risk Management under core risk management guidelines. The Treasury Division manage market risk covering liquidity, interest rate and foreign exchange risks with oversight from Asset-Liability Management Committee (ALCO) comprising senior executives of the Bank. ALCO is chaired by the Managing Director. ALCO meets at least once in a month.
Policies and processes for mitigating market risk:	Risk Management and reporting is based on parameters such as Duration, PV, Exposure and Gap Limits, VaR etc, in line with the global best practices. Risk Profiles are analyzed and mitigating strategies/ processes are suggested by the Asset Liability Committee (ALCO). Their effectiveness is monitored on an on-going basis. Forex Open Position limits (Day limit / Overnight limit), Deal-wise cut-loss limits, Stoploss limit, Profit / Loss in respect of cross currency trading are properly monitored and exception reporting is regularly carried out. Holding of equities is monitored regularly so that the investment remains within the limit as set by Bangladesh Bank. Asset liability management committee (ALCO) analyzes market and determines strategies to attain business goals. Reconciliation of foreign currency transactions.
